

**BORIS
BREJCHA**
HIGH-TECH MINIMAL

BIOGRAPHY

Boris Brejcha. "**The man with the mask**", "**King of high-tech minimal**"; Boris has many names; but one thing is certain:

He's been celebrated as a superstar in South America for years and the hype about him in Europe has also grown out of proportion.

His name adorns all the line-ups at the most internationally renowned festivals and his club performances are often sold out within minutes.

Since 2016, he has been doing his own "**Boris Brejcha in Concert**" shows, filling the really big venues (with up to 15,000 guests) without any problems.

After many releases, two own bus tours through Europe with his label and a change to the well known label "**Ultra Music**", Boris continues to enthuse the masses in 2020.

Boris plays exclusively his own produced music and his music style is unique and unmistakable. His sets leave nothing to be desired; a mixture of powerful techno elements, rousing melodies and trancy sounds.

If you have any chance to see Boris this year, you should hurry up. The tickets will be sold out quickly. We are looking forward to see you!

"The future will be Fckng Serious"
