

**MEUTE**  

**TECHNO  
MARCHING  
BAND**

The bass is vibrating, confetti is shimmering, and the red uniforms are popping in the strobe light. With its explosive mix of hypnotic driving techno and expressive brass band music, the techno marching band MEUTE has been creating a big buzz across continents since 2016.

The eleven musicians from Hamburg in their iconic red jackets love to break the rules and defy boundaries. What started as a small experiment on the streets of the district of St. Pauli quickly became a globally acclaimed phenomenon and led to joint performances with artists such as Laurent Garnier, Stephan Bodzin, Flume, Solomun and Marc Rebillet. The band revolutionizes techno music and redefines the concept of brass bands using acoustic instruments only. It provides for viral hits, sold-out clubs, and real electronic frenzy. Enjoy the bliss of a colorful, thrilling experience that will get every single one of you onto the dancefloor.

After an exciting year 2023 with a TV appearance in the international series Babylon Berlin, tour stops in New Zealand, Australia, America and Europe, the release of endless pent-up party energy and the announcement of their fourth studio album EMPOR, the band is getting ready for another wild ride in 2024: MEUTE invites you to colourful, intoxicating excesses in sweaty bliss across Europe's festival stages and club shows.
