

ROMAIN GARCIA

Graduated in graphic arts, born in Paris of Spanish origin, Romain Garcia has always drawn from his numerous influences, whether cultural or artistic. DJ since he's 15 years old and fan of techno, especially melodic, he sent a demo to Ben Böhmer during the quarantine, who immediately hooks on his soaring style, full of exotic sounds, of triturated voices samples, plated on hypnotic and dancing rhythms. This artistic crush led to a collaboration: that's how was born "Cappadocia", the first track of Romain Garcia released on Cercle Records in 2020, already accumulating 9 million streams. The single "White Flag" was released afterwards, on the German label Ton Topferei. Recently spotted by the management of NTO, who Romain is sharing a lot of dates with, he released his 1st EP "Syamo", in December 2021, and signed on the prestigious English label Anjunadeep.

His EP "Before You Go" released on February 25, 2022 has already received the praise of the French press (Tsugi, Libération) and is playlisted on the famous American electronic music radio Sirius Chill.
