

BIOGRAPHY

Marion Di Napoli

As a luminary of the French techno scene, Marion Di Napoli now makes her voice resonate all across the globe. In just a few years, she developed a strong and unique identity that makes her stand out from the crowd as a producer. Her singular compositions led to the creation of her own distinct musical genre that defies conventional categorization. From there, her « Mystical Techno » was born.

Guided by her mother in the self-taught learning of acoustic instruments and inspired by her father's passion for French classics, she cultivated a deep love for music and lyrical expression from an early age. She built her universe with entrancing compositions, blending dark, lyrical, classical and oriental influences. But what truly sets her apart is her hauntingly beautiful voice, a rare instrument in the techno landscape.

Around 17 years old, she was introduced to the underground techno scene by going to her first raves, whereupon she developed a profound interest and curiosity for this genre of music. In 2019, she embarked on a journey of self-directed education in music production, delving into the realm of MAO music with a limitless passion. Despite the ever-shifting tides of musical trends, she always remains steadfast in her artistic vision, refusing to compromise her identity for fleeting fads. Her commitment to innovation has propelled her to the forefront of the techno scene, gracing the stages of renowned festivals across Europe. In her sets, she unveils her distinctive techno sound by exclusively playing her own productions, but also by not being afraid to mix several styles, taking her audience into her story.

In 2022, Marion Di Napoli embarked on a new chapter with the creation of her own record label *NÿX Records*. Through her label, she not only produces her own visionary music but also works with artists who share her passion for pushing the boundaries of techno, offering listeners a transformative experience that resonates on a deeper level.

Today, she stands as a beacon of innovation in the techno soundscape. Connected to respected labels and artists such as Amelie Lens, Indira Paganotto or Charlotte De Witte whose label KNTXT she joined in 2024, she has cemented her status as a strong force in the industry. In a world where competition is increasingly tough, her perseverance and hard work push her, day after day, ever further in her creativity.
